Giant BALLAY Dahlias  
Since 1920

# BALLAY DAHLIA GARDENS

◀ 4309 EL CAMINO REAL  
PALO ALTO, CALIFORNIA ▶

## OUR NEW INTRODUCTIONS FOR 1945

**BALLAY ROUGE**—Incurved cactus. Bright clear red that does not fade. A fine-petalled true type cactus in a color that is among the most popular in dahlias. The perfectly formed blooms produced freely and early on the best of stems will make it a distinctive addition to the cactus class and a useful variety for all purposes. It grew to 9 inches in diameter for Mr. George R. Currie at Sheboygan, Wisconsin, which is large for a true type cactus. Was also good for Col. R. T. Eddy in Southern California, who has included it in his 1945 Honor Roll in Flower Grower. A brilliant red cactus like this we have long dreamed about and hoped some day to have. .... **\$15.00 Net**

**BELVEDERE**—Informal decorative. Silvery pink, a clear true pink with lighter shadings. All things considered we believe this is just about the best real pink dahlia yet to come out and one of the finest varieties in our entire planting of over 100 varieties. Flower is huge, often measuring 12 inches, full and well formed, with excellent substance. Stem is extra long, straight and strong, and plant is very vigorous and produces freely. Mr. Currie reports it as doing exceptionally well for him in Wisconsin. Our dahlias were not in bloom in time to exhibit at the San Francisco Show on August 30th this year, so our usual report on our winnings there is eliminated this time. This one would have been a good bet as a winner of high honors. .... **\$15.00 Net**

**SILVER JUBILEE**—Informal decorative. Bright pink tipped white. Something entirely new in a bi-color. So far it has thrown no blooms of solid color. It is a good grower, has considerable size (10 to 11 inches), and is of beautiful and artistic form. Exhibited by Mr. Currie at Milwaukee, it won as best undisseminated decorative and was runner-up for the Achievement Medal. Also on the Honor Rolls of Col. R. T. Eddy and Mr. J. L. Roberts. Heretofore there has not been very strong competition in the bi-color classes. With the addition of new color combinations such as this, the bi-color class should become quite interesting. For hobbyists of every kind there is nothing so intriguing as a specimen that is entirely new and different .... **\$15.00 Net**

**ONE STRONG DIVISION OF ALL THREE OF THE ABOVE FOR. .... \$40.00 Net**

**HAND POLLENIZED DAHLIA SEEDS** from the largest and best varieties  
**\$10.00 per 100 Net**

**TERMS**—CASH WITH ORDER or before date of shipment. On retail orders for California delivery 2½% Sales Tax should be added to the amount. Prices listed are for strong field grown root divisions. We guarantee that all roots are sent true to name and in good growing condition, but beyond this assume no responsibility other than the original price of the root. All shipments prior to April 1st, except on the Pacific Coast, are sent by Express Collect to insure against freezing.

**This is the only Price List we will issue in 1945. Next year we hope to resume our regular illustrated catalogue.**
